THE FUTURE HAS ARRIVED.
ARE YOU READY?

Presenting

LATITUDE™
FUEL DISPENSER

FOR THE UNSTOPPABLE YOU

UNICORN

The future of fuel dispensing has arrived.

- EasyView display to reassure customers they're getting exactly what they paid for.
- Opti-flow Hydraulics improves hydraulic performance.
- Powersafe Electronics that minimize dispenser breakdown.
- Security of your assets was one of your biggest concerns. We made it ours.
- Ergonomic height and location of attachments.

UNICORN

A future-ready dispenser to fuel your future.

We set out to design a future-ready dispenser and our thoughtful design process resulted in Latitude, a dispenser that fuels your future. The Latitude series from Gilbarco Veeder-Root offers a comprehensive suite of features to guide your business.

Engineered for efficiency and security, and designed for convenience; Latitude will exceed expectations at every step of your customers' journey.

Our modern, uniform design has been carefully crafted to enable an engaging experience that drives forecourt traffic, fosters loyalty and grows with your business.

With wide range of models & configurations to choose from, the Latitude series offers you the freedom to tailor your dispensers, future-proof your business and enable endless possibilities.

UNICORN

Features

Enhanced Security

Latitude's improved security features confirms our commitment to your needs and includes eLock asset protection, encrypted communication protocols and secure pulsar design to prevent fraud or tampering.

PowerSafe Electronics

Engineered to tolerate harsh voltage fluctuations, Latitude has been engineered with an enhanced power filter. The voltage range has been extended from 90V to 380V to ensure sustained operation.

Practical Design

Reduce the need for maintenance with Latitude's single-flushed surface design that deters undue dust accumulation and keeps the dispenser looking newer for longer.

EasyView Display

The bold and clear display increases customer trust and turns them into loyalists. Reassure your customers that they are getting exactly what they've paid for with bold digital numbering.

Ergonomics and Usability

The LATITUDE™ fuel dispenser's design positions user interface components like keypad, hose, nozzle, etc. at an ergonomic height and location suitable for hundreds of operations.

Streamlined calibration

Secure pulsar switches allow for a simplified calibration procedure with clear insight into nozzle meter calibration requirements.

UNICORN

Over the next few years, the needs of your station and your customers will evolve.
So will the Latitude series of fuel dispensers.

We set out to design a future-ready dispenser and our thoughtful design process resulted in Latitude, a dispenser that fuels your future. The Latitude series from Gilbarco Veeder-Root offers a comprehensive suite of features to guide your business.

Engineered for efficiency and security, and designed for convenience; Latitude will exceed expectations at every step of your customers' journey. Our modern, uniform design has been carefully crafted to enable an engaging experience that drives forecourt traffic, fosters loyalty and grows with your business.
